5785 Mission Center Rd APT# 309 | San Diego, CA 92108

## SUMMARY

Technical project manager pursuing an interest in software development and solutions engineering. Recently increased development efficiency saving an estimated 100 hours of development resources each month by proposing and implementing a native Shopify environment to localize version control using Git, Node, Gulp, Beanstalk, and DeployBot. Interested in contributing to exceptional software products and solutions, while learning from coworkers and team leaders at a successful company.

## EXPERIENCE

### JUNIOR PROJECT MANAGER, MAGENTO EE & CLOUD

Accelerate Digital Agency, San Diego CA | March 2017 - Present

Technical ecommerce project manager managing small to medium scale ecommerce implementations in Magento EE, CE 2.x, and Shopify Plus. Our team was recently named the number one Magento agency by number of Magento Cloud implementations.

- Manage scope, timeline, budget, expectations, and multiple development teams on full lifecycle ecommerce implementations ranging in budget from \$50,000 - \$250,000
- Increased development efficiency saving an estimated 100 hours of development resources each month by localizing Shopify development.
- Implemented guidelines to coordinate resources for functional, technical, and platform requirements for the integration of legacy ERP solutions that must interface with the Magento ecommerce platform.
- Assess and communicate technical risks internally and externally, assist developers with technical problem solving in order to find resilient solutions.
- Often fill the role of solutions engineer, working with development teams to architect ecommerce solutions for lifecycle projects.

### REGIONAL SALES MANAGER

The Daily Aztec, San Diego State University | Sept. 2014 - March 2017

Led and set goals for a team of 8-10 account executives, simultaneously managing a portfolio of clients grossing \$100,000 in annual recurring revenue. Adapted the print newspaper business to offer online solutions in today's rapidly changing economy.

## PROJECTS/PORTFOLIO

### MINT-SMS CLOUD COMPARISON - PYTHON3 + AWS/AZURE/GOOGLE CLOUD

[www.mjvolk.com/mint-sms](http://www.mjvolk.com/mint-sms) | March 2018

Python script to scrape financial account data from Mint.com to send you a daily text message telling you your balance on all accounts. I used this opportunity to compare the three most popular cloud platforms, AWS, Azure, and Google Cloud.

- Python cron job to refresh account data from web scraper once daily
- Integrate cloud platform with Twilio to package returned scraper JSON data and send as SMS message once a day
- Compare hosting plans of AWS EC2, Google Cloud, and Microsoft Azure.

### USER AUTHENTICATION API - NODE.JS + EXPRESS.JS + MONGODB

[www.mjvolk.com/user-auth](http://www.mjvolk.com/user-auth) | February 2018

Wanted to become more familiar with Node.js by building a simple user authentication module using passport-jwt for user account tokenization. Open sourced as a boilerplate for those needing a quick User Auth API.

## EDUCATION

### B.A., ECONOMICS

San Diego State University

May 2017 | Dean's List, Fall 2015

## LANGUAGES

- Python 3 (OOP)
